MAJOR T. H. ST. GEORGE TUCKER,
FIRST ASSISTANT TO THE RESIDENT IN MYSORE.

To

The Dewan of Mysore.

Dated Bangalore, 4th July *1916.*

SIR,

I am directed to forward a copy of letter No. 4494-W-II, dated the 13th June 1916, from the Government of India, in the Department of Commerce and Industry regarding the desirability of preventing as far as possible transactions with the Tudor Accumulator Company, Ld.

2. I am to request that, if there be no objection, action on the lines indicated by the Government of India in the concluding portion of their letter may be kindly taken in the Mysore State.

I have the honour to be,

Sir,

Your most obedient servant

for First Assistant Resident.

KH

R. O 2.—R. P. B.—6-1916.—1,000.

Letter No. 4494-W-II, dated the 14th June 1916, from the Government of India, Department of Commerce and Industry, to ~~the~~ All Local Governments and Administrations (other than Bengal)

I am directed to address the Government of ------- on
y o u
the desirability of preventing as far as possible transactions with the Tudor Accumulator Company, Ltd.

2. The Government of India understand that this Company, though registered in London as a British Company is for all practical purposes a German concern, since nearly the whole of its capital is German and four out of its seven directors were German at the outbreak of war. Its branch in India has hitherto been allowed to trade under a license subject to the supervision of the Controller of Hostile Firms, Bengal, because it was feared that there was a demand for accumulators in this country which could not be satisfactorily met from any other source. Enquiries since instituted show, however, that there is at present no reasonable ground for this apprehension. Plates manufactured by certain genuine British Companies, e.g. the Chloride Electrical Storage Company and the D.P.Battery Company, Limited, are reported to be equally good and would form a satisfactory substitute. In the circumstances the Government of India have decided to bring the Company's Indian branch under liquidation and instructions are being issued for the disposal of its existing stocks of accumulators as soon as possible. The Government of India further consider that the direct purchase of the Company's accumulators from England should be put a stop to or at any rate discouraged. I am to request, therefore, that, with the permis-
if there is no

sion of His Excellency the Governor in Council,
~~Lo~~ the Honour the Lieutenant Governor (in Council)
objection

steps may be taken in the Presidency of -------, to prevent
Province
the purchase by the various Government departments of accumulators
manufactured

manufactured by the Company other than those that are already in India and that their purchase after the liquidated stock is disposed of by public bodies and the general public may as far as possible be discouraged.
